

New Teacher Web Pages

Ballard Community Schools is pleased to introduce a new way to communicate with parents and students. We recently updated our website to include teacher web pages. These new pages include great new features that help us better communicate with our community. The new features include: consistent design for easier browsing, front page biography and picture, blogs, and the ability for our staff to attach documents, pictures and short clips.

As our teachers become more familiar with these features, we can foresee parents and students using the web pages for improved communications. Teachers are already placing lesson plans, announcements and classroom projects on their new pages.

Below are instructions on how to find these web pages:

Browse to our District Web Site:

www.ballard.k12.ia.us

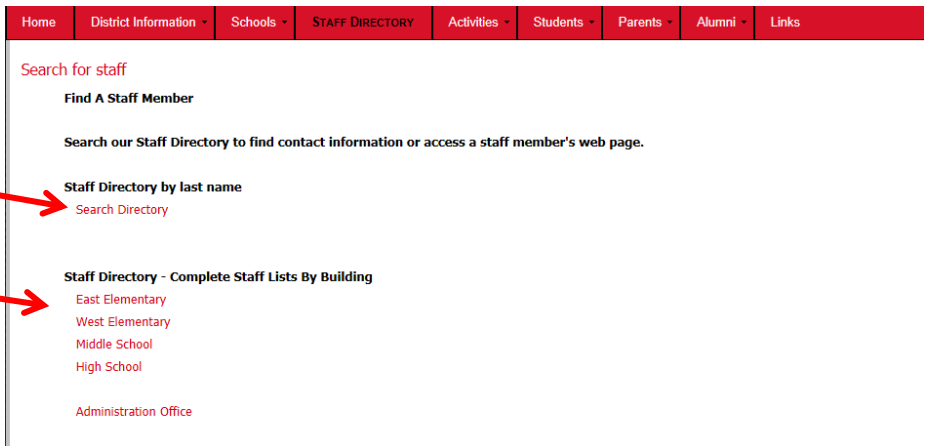

Click the "Staff Directory" button at the top

From the "Search for Staff" page you can search by

Last name

Or you can browse by building

Once you browse to the person you are searching for, simply click the "view" icon to the left of their Building location

View	Building	Title	Email
	Name: Dave McGill		
	Ballard Community School	Director of Technology	dmcgill@ballard.k12.ia.us
